

empma
East Midlands Property Alliance

Sponsored by

Sustainable Construction iNet

east midlands **innovation**

Opportunities for local companies to be part of the empma supply chain network:

‘Supply Chain Network’ for ***Leicester and Leicestershire.***

Event to be held at:

**The National Space Centre
Leicester
6th July 2011**

To begin at 8:30 and conclude at 12:30pm
Bookings preferred but you can just turn up at a time to suit.

empma Frameworks include **Minor Works, Intermediate** and **Repairs & Maintenance Frameworks** and these Framework Partners (Main Contractors) are seeking specialist trades for their empma projects!

This is an opportunity for local companies to meet the empma Main Contractors and deliver local services in the Leicester and Leicestershire area whether you are small, medium or large.

Learn about how your business can be helped and staff trained through our readiness network by partners from Construction Skills, iNET, Career Chain, EMCBE and others – see reverse for details.

Join the ‘Build East Midlands’ initiative to become a supply chain partner.

Register now on www.buideastmidlands.co.uk and be considered for empma projects

These are contractor organised events. For further information please contact Alistair McCallum of Wates – alistair.mccallum@wates.co.uk or to book please go to www.bre.co.uk/inetevents

The ‘Build East Midlands’ initiative is supported by over 36 Local Authorities who spend in excess of £500m on construction related services each year

These Frameworks are established by Scape, as empma’s Managing Agent, and are standing offer arrangements which have been procured to meet the requirements of the Public Contract Regulations.

‘Supply Chain Network’ for **Leicester and Leicestershire.**

Event to be held at:

**The National Space Centre
Leicester
6th July 2011**

**Meet the main contractors who deliver projects
To begin at 8:30 and conclude at 12:30pm**

We are also holding a number of talks by our customers and partners who will discuss the context of the day, challenges facing clients with regards to project delivery and companies offering support services.

Time 9:00am – 10:15am
